4			i noui 45 minutes
4	You must answ	er on the question paper.	
	You will need:	Geometrical instruments	

You will need: Geometrical instruments

INSTRUCTIONS

- Answer all questions. •
- Use a black or dark blue pen. You may use an HB pencil for any diagrams or graphs. •
- Write your name, centre number and candidate number in the boxes at the top of the page. •
- Write your answer to each question in the space provided.
- Do not use an erasable pen or correction fluid. •
- Do not write on any bar codes.
- You should use a graphic display calculator where appropriate.
- You may use tracing paper. •
- You must show all necessary working clearly and you will be given marks for correct methods, including sketches, even if your answer is incorrect.
- Give non-exact numerical answers correct to 3 significant figures, or 1 decimal place for angles in • degrees, unless a different level of accuracy is specified in the question.
- For π , use your calculator value. •

INFORMATION

- The total mark for this paper is 96.
- The number of marks for each question or part question is shown in brackets [].

Formula List

Area, A , of triangle, base b , height h .	$A = \frac{1}{2}bh$
Area, A , of circle, radius r .	$A = \pi r^2$
Circumference, C, of circle, radius r.	$C = 2\pi r$
Curved surface area, A , of cylinder of radius r , height h .	$A=2\pi rh$
Curved surface area, A , of cone of radius r , sloping edge l .	$A = \pi r l$
Curved surface area, A , of sphere of radius r .	$A = 4\pi r^2$
Volume, V , of prism, cross-sectional area A , length l .	V = Al
Volume, V , of pyramid, base area A , height h .	$V = \frac{1}{3}Ah$
Volume, V , of cylinder of radius r , height h .	$V = \pi r^2 h$
Volume, V , of cone of radius r , height h .	$V = \frac{1}{3}\pi r^2 h$
Volume, V , of sphere of radius r .	$V = \frac{4}{3}\pi r^3$

Answer all the questions.

1 (a) Ruri buys these items.

1 bag of lettuce	\$1.20
1 cucumber	\$0.90
1 box of 8 tomatoes	\$1.60
1 bag of 3 peppers	\$1.50
1 bag of 6 avocados	\$3.00

(i) Work out the total cost of the items.

(ii) Ruri makes a salad. The items she uses are shown in the table.

Complete the table.

Item	Cost (\$)
1 bag of lettuce	
$\frac{1}{2}$ a cucumber	0.45
4 tomatoes	
1 pepper	
1 avocado	
Total	

- (b) Roses cost \$1.50 each. Ruri has \$10.00 to spend.
 - (i) Work out the greatest number of roses she can buy.

.....roses [1]

(ii) Work out how much money she has left.

\$ [1]

[3]

2 There are 200 shirts in the school shop. Lotem counts the number of shirts of each size.

Size	S	М	L	XL	XXL
Frequency	36	64	48	32	20

(a) Complete the bar chart to show this information.

(d) Complete the relative frequency table. Write each value as a decimal.

Size	S	М	L	XL	XXL
Relative frequency					

(e) Find the probability that a shirt, chosen at random, is not size L.

......[1]

[2]

3	(a)	Write the number 30062 in words.
	(b)	Write down all the factors of 50. [1]
	(c)	Write $\frac{1}{6}$, 17% and 0.16 in order of size, starting with the smallest. [2]
	(d)	[1] smallest [1] Similar Find the value of $\sqrt{62}$. Give your answer correct to 3 decimal places.
	(e)	[2] Work out $\frac{6.4+9.3}{8.4}$. Give your answer correct to 2 significant figures.
	(f)	[2] These are the first four terms of a sequence. $60 53 46 39$
		 (i) Find the next two terms of this sequence. (ii) Find the <i>n</i>th term of this sequence.

The diagram shows the graph of y = f(x). On the same diagram, sketch the graph of

(i) y = f(x) + 2, [1]

(ii)
$$y = f(x+3)$$
. [1]

(b)

(i) On the diagram, sketch the graph of $y = 2x^2 - 4x$ for $-1 \le x \le 3$. [2]

(ii) Find the coordinates of the local minimum.

(.....) [1]

An unbiased blue die has a cross on 2 faces and a circle on the other 4 faces. An unbiased red die has a cross on 1 face and a circle on the other 5 faces.
(a) Micha rolls the blue die. Find the probability that he rolls

(i) a circle,
(ii) a tick.

[1]
(b) Derk rolls both dice.
(i) Find the probability that he rolls a cross on the blue die and a cross on the red die.

......[2]

(ii) Derk rolls the two dice 360 times.

Find the expected number of times he rolls a cross on the blue die and a cross on the red die.

8 (a)

NOT TO SCALE

The diagram shows a rectangle, *ABCD*. *M* is the mid-point of *AB* and angle $BMC = 53^{\circ}$.

Find the value of each of *x*, *y* and *z*.

<i>x</i> =	
<i>y</i> =	
z =	 [3]

(b) The diagram shows another rectangle PQRS.

NOT TO SCALE

Complete each statement using one word from this list.

similar	congruent	acute	obtuse	right	reflex	alternate	correspor	ding
	The angle <i>QPS</i> is							
	The angle <i>QRP</i> is							
	Triangle PQR is			to trian	gle PSR.			
	Angle <i>QPR</i> is equ	al to angle	PRS because	they are		a	ngles.	[4]

..... hours minutes [2]

(ii) Inez leaves home at 1320.

Work out the time that she arrives at Hindy's house.

9

(a)

10 (a) Solve.

4x + 7 = 8x - 9

 $x = \dots [2]$

(b) Expand and simplify.

$$2(x+3y) - (2x-y)$$

(c) Factorise fully.

$$3p^2q - 6pq^3$$

.....[2]

(d) $2^n \times 2^{2n} = 2^{12}$

Find the value of *n*.

(e) $\frac{5^6}{5^t} = 5^4$

Find the value of *t*.

t = [1]

(f) Write as a single fraction in its simplest form.

(i)
$$\frac{a}{2} + \frac{2a}{5}$$

(ii)
$$\frac{t}{9} \times \frac{3t}{2}$$

(iii)
$$\frac{3m}{5} \div \frac{m^2}{4}$$

.....[2]

- a restaurant.
- 11 The cumulative frequency curve shows the time, in minutes, that 200 customers waited to be served in a restaurant.

ż

Time (minutes)

- - (ii) the lower quartile,

(a) Use the curve to find

(i) the median,

- (iii) the interquartile range.
- (b) (i) Complete the frequency table.

Time (<i>t</i> minutes)	Frequency
$0 < t \le 1$	
$1 < t \le 2$	
$2 < t \le 3$	
$3 < t \leq 4$	
$4 < t \leqslant 5$	
$5 < t \le 6$	10

(ii) Write down the modal class.

 $\dots < t \leq \dots [1]$

..... minutes [1]

..... minutes [1]

..... minutes [1]

(iii) Work out an estimate of the mean.

..... minutes [2]

Question 12 is printed on the next page.

[2]

A trophy is in the shape of a solid cone on top of a solid cylinder. The cone has radius 5 cm and slant height 13 cm. The cylinder has radius 6 cm and height 0.2 cm.

(a) Work out the volume of the cylinder.

(b) Use Pythagoras' Theorem to show that the vertical height, h cm, of the cone is 12 cm.

(c) Work out the volume of the cone.

..... cm³ [2]

[2]

(d) Work out the curved surface area of the cone.

Permission to reproduce items where third-party owned material protected by copyright is included has been sought and cleared where possible. Every reasonable effort has been made by the publisher (UCLES) to trace copyright holders, but if any items requiring clearance have unwittingly been included, the publisher will be pleased to make amends at the earliest possible opportunity.

To avoid the issue of disclosure of answer-related information to candidates, all copyright acknowledgements are reproduced online in the Cambridge Assessment International Education Copyright Acknowledgements Booklet. This is produced for each series of examinations and is freely available to download at www.cambridgeinternational.org after the live examination series.

Cambridge Assessment International Education is part of the Cambridge Assessment Group. Cambridge Assessment is the brand name of the University of Cambridge Local Examinations Syndicate (UCLES), which itself is a department of the University of Cambridge.
