2 NPX is an online retail business. All orders are sent directly to customers from its warehouse. NPX employs 60 full-time workers. The Operations Manager is analysing NPX's cash-flow forecast. An extract is shown in Table 2.1. To improve productivity, the manager plans to introduce new technology that can select and pack all the items for each order. This will make 35 workers redundant. The technology will cost \$40 000. The manager is considering using either internal sources or external sources to finance this technology.
